Free samples. You only pay the courier.

Direct communication

Quick replies on email and WhatsApp, quote to dispatch.

OUR RANGE

01

HDPE Shade Net

02

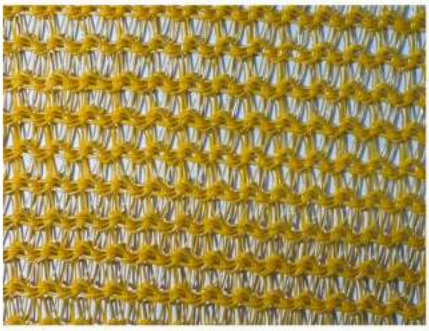

Mulch Film

PRODUCT 01

HDPE Shade Net

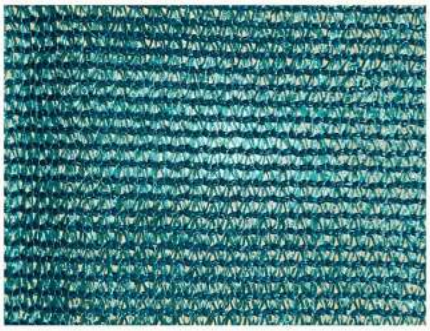

Knitted HDPE netting that controls sunlight, heat and wind. Choose the weave, weight and shade that suit your crop, site or court.

TYPES

Mono × Mono

Round monofilament both ways. Strongest and longest-lasting.

Tape × Tape

Flat tape both ways. Light and economical.

Mono × Tape

Monofilament with tape. Balance of strength and cost.

SPECIFICATIONS

Material	HDPE
Type	Mono × Mono · Tape × Tape · Mono × Tape
Weight (GSM)	80 – 250 GSM
Shade	Customised shade % to requirement
Width	1 m – 6 m · length as per requirement
Also available	FR-grade · Anti-hail net · Eyelets
Colour	Evergreen or customised on request
Packing	Customisable — roll size, wrapping and labelling

SHADE NET · APPLICATIONS

Built for the field, the site and the court.

Agriculture

Nurseries, greenhouses, poly-houses and partitions in open fields. Cuts heat stress and protects yield.

Car Parking Net

Shade structures for open parking. Keeps vehicles cooler and protects paint.

Construction Sites

Scaffold screening and site fencing. Contains dust and debris, improves safety.

Lawn Tennis Privacy Net

Court windscreens and privacy screens. Blocks wind and distraction.

PRODUCT 02

Mulch Film

Agricultural mulch film that suppresses weeds, holds soil moisture and keeps root-zone temperature steady — for cleaner fields and better yield.

Plain Mulch Film

Black or silver/black rolls for crop beds, cut on site as needed.

Pre-Punched Mulch Film

Holes punched at your plant spacing. Faster laying, less labour.

SPECIFICATIONS

Type	Plain · Pre-punched holes
Colour	Silver black
Protection	UV-stabilised
Thickness	20-100 microns
Width & length	Customised to your requirement
Planting holes	Pre-punched to your hole size and spacing
Packing	Customisable
